

**GOVERNOR'S TASK FORCE ON CHILDREN AT RISK
STRATEGIC PLAN
2003-2006**

Idaho's Children at Risk Task Force continues to comprehensively review and evaluate State investigative, administrative, and both civil and criminal handling of cases of child abuse and neglect, particularly child sexual abuse and exploitation. The Task Force also considers issues involving suspected child maltreatment related fatalities and cases involving a potential combination of jurisdictions.

The following report outlines strategic planning goals through the year 2006. The plan emphasizes the need for continued efforts to integrate the child protection surveillance and response systems in each community in Idaho through the development of multi-disciplinary response teams. Many of the goals outlined in this plan are designed to support the development, training, enhancement, and technical assistance of local multi-disciplinary teams. These strategies reflect the on-going mission of the Children at Risk Task Force, which is "to make the system more sensitive and responsive to child victims".

GOAL 1

Continue development of Multi-Disciplinary Teams (MDTs) in each county in accordance with Idaho Section 16-1609. Ensure that teams are well trained in risk assessment and interviewing and are able to address both criminal and civil child abuse and neglect cases, particularly sexual abuse.

STRATEGIES	2003	2004	2005	2006
a. Provide annual area MDT training to promote the continued formation of MDTs and enhance existing MDTs.				
b. b. Through POST, train newly elected prosecutors at their academy regarding their responsibility to develop MDTs according to Idaho 16-1609.				
c. Encourage MDT formation and functioning at the prosecutor's seminars which meet semi-annually. Prepare handouts at the prosecutor's meetings with information to promote initiating MDTs or enhancing their current function.				
d. Submit or encourage the inclusion of articles promoting the use of MDTs in each issue of the quarterly publication of the Peace Officer Standard and Training Newsletter, Protocol. Examples of articles include effective methods of reviewing child protection referrals and/or cases at the MDT meetings.
